

Conference Highlights— A Canadian Point of View

by Marsha Read

When people from all over the world come to town for the purpose of sharing in a healing, love, laughter, joy and peace there is magic in the air. Many people have commented on the fullness of their heart space when they left *Uniting Healers Worldwide*. Imagine a world where people lived all the time from that beautiful place of Kaori the Maori way. Doing the dance with Bob from Arlington, Virginia was one of the highlights for me. It really cleared and raised my energy. Chanting with Paul Alfalla and Dan Trollinger when they combined sessions and moved energy around was some kind of magic indeed. Singing and dancing with everyone brought me much JOY. Each day I am singing the Blessing Song. Joy be in my heart, Peace be in my Spirit, Compassion be my journey, Love be in me. It is with deep gratitude that I thank each and all of you for supporting *Healers Worldwide* in Calgary 2008. May you come again and stay long, may you take your time leaving and hurry back.

*Joy be in thy heart.
Peace be in thy spirit.
Compassion be thy journey.
Love be in thee.*

*Joy be in my heart.
Peace be in my spirit.
Compassion be my journey.
Love be in me.*

Sharing the Spirit

by Thelma Shulyk

Energy Medicine Partnerships Western Canada together with Energy Medicine Partnerships International have stepped forward to share our SPIRIT with Healers in South Africa, Peru, Australia, New Zealand, USA, North West Territories, Yukon and many Canadian provinces.

The Uniting Healers Worldwide Conference began with an elegant reception to welcome out-of-town guests and presenters as well as to thank the planning committee.

Instructors from participating countries met on September 25, for more advanced teaching experience and presentation of new ideas.

The Annual General Meeting followed which featured updates of expansion of the Energy Medicine International family held at *Spiritual Directions*, an organization that supports energy-based healing.

The conference officially opened on September 25 evening. Presentations from seven different specialists facilitated active participation by all 148 registrants until September 28.

Many of us visited Sacred Sites the three days following the conference. This phenomenal experience took us to Lake Minnewanka, Blackfoot Crossing and Sundail near Carmenguay, Alberta.

Thank you and kudos to all the presenters for a job very well done and thank you for coming to Calgary, Alberta, Canada when called by SPIRIT.

Spiritual Greetings

from Dr. Mary Jo Bulbrook, CEMP/S/I
Energy Medicine Partnerships Founder & Director
October 21, 2008

“May our hearts be focused and centered as we embrace with love the Divine in each other and Become ONE in Spirit.”

This first newsletter marking the anniversary of Energy Medicine Partnerships in Canada September 2008, *Uniting Healers Worldwide* finds our hearts full and overflowing with love.

For all those who had a part in making this conference successful know that the fruits of your efforts have contributed to our spiritual base individually and collectively. The effects are lasting and will continue to shift energies replacing what no longer fits; providing space for a renewed sense of purpose and commitment to Spirit.

I invite each of you to call on the unifying energies of the Calgary event to continue to bless you, you practice, your teaching and your loved ones. Through a daily meditative practice and focus intention, you can reshape your life.

Take charge of your present and future to become all you were intended to be! May your path be filled with blessings, love, light, laughter, congruence, joy and peace.

Mary Jo

Dr. Mary Jo Bulbrook

Kids Helping Kids

by Heather Johnstone
Calgary, Alberta, CA

Kids Helping Kids was launched in Western Canada on November 10, 2007. The invitation extended to children of all ages. They would be exploring their physical, emotional, mental & spiritual energy systems. They would also learn a technique to balance their energy. The ways of opening up to this balance would include drumming, story telling, art, movement, music, & sharing.

At the first gathering children decorated their name tags, selected colored dots & favorite animal stickers. They shared who they were & something special about themselves. A lively opening song got everyone moving around, shaking hands & laughing.

The drumming that followed was greeted with great enthusiasm. It shifted the energy in all corners of the room.

Marsha Read told the story of Mary Jo Bulbrook, who talked to her angels & how she was led to listen to them. A few of the younger children felt safe enough to share that they also spoke to angels.

After a meditation the children were given the outline of a child's body on a sheet of paper. They colored in their own energy system, then shared their picture with a partner. Some of the pictures revealed awareness of auras and points of blocked energy. Drawing seemed to come more easily to them than expressing what was drawn.

Feedback on a questionnaire showed that drumming was very popular. Comments made in two later sessions were:

I felt "shy" when I arrived. I feel "great & excited" now. "I learned about the chakras". Another child wrote that they were "tiered" but felt "grounded" now.

In the question about "what else do you wish we could do" someone said "even more drumming".

One child wrote "playing music can balance your energy".

When stuffed animals were donated for the second gathering, one child wrote that he enjoyed "hugging a bear the most". He learned "to be happy all the time".

In summary, I believe that the children have much to teach us. This was apparent during Dr. Mary Jo Bulbrook's visit in March. A child who was sad about the passing of a pet was given a toy by a toddler who was about 19 months old. Are children sensitive to energy? You bet!

KIDS HELPING KIDS is an international program established by Energy Medicine Partnerships International and is ongoing, most notably in Lima, Peru. Children of families that live on the dump in Lima learn these health care techniques, taking the energy awareness home to siblings and caregivers. The body's natural healing process is activated.

an inspired storytelling process

Becoming a Healer

is a journey — a process...

Take time to reflect, to go inside and discover what has happened over the years.

Know that this unfolding has many stages, many initiations along the way.

For some it comes as a straight line, for others a meandering path.

It may have detours for many reasons.

It does not matter how you proceed, only that you answer the call to heal.
