GHA Original & Current Mission & Goals

<https://www.akamai.university/alliance.html>

- **CLIENT EMPOWERED CARE**
GHA's #1 mission is to help their clients walk their journey and assist them to make informed client-centered health decisions. GHA's goal is to open a broader, inclusive framework of care where individuals are treated equally, part of a family and member of a community. The recipient is the focus of intention and attention with cultural specific integrative approaches.
- **WELLNESS & NATURAL HEALTH**
Secondly, GHA's mission is to keep health care costs down by promoting a wellness-natural health plan including preventive care rather than just illness-symptom or medical disease approach.
- **PARTNERSHIPS IN CARE & EDUCATION**
Thirdly, GHA promotes wellness, natural health and energetic care plus health education from qualified certified professionals and approved organizations in collaboration, as equal partners alongside the existing system of illness care.
