

# Multi-Dimensional Healing: Ethical Practice & Teaching

Why now? Why us?

# Background & Description

The widespread experience of multi-dimensional consciousness has opened the door to examine dynamics regarding what constitutes ethical practice and teaching in the industry of Consciousness Studies. This includes Near-Death Experiences, Out of Body Experiences, Past Lives Regression, Shared Destiny, Twin Souls, Psi Phenomena, Mediumship. Poltergeist and more.

Why now? Why us? Speaks to the urgency felt throughout this nation and beyond. Reports of abuse, questionable educational preparation, ill equipped handling difficult experiences is getting our attention and we must take action.

Because those awakened may not have had training in ethical practice and teaching, there is risk of abuse with those who are vulnerable. We need to provide leadership within, rather than being imposed upon from without.

# Presentation Goals

How to provide multi-dimensional support for client, practitioner or teacher in the healing journey requires one to operate within ethical practice and teaching guidelines.

Multi-dimensionality reality forces us to examine and understand the unique demands required to act ethically.

My goal is to illustrate some of these dynamics and alert you to some of what is happening affecting all of us.

# How is Multi-Dimensional Healing Different?

## Traditional Clinical Care

- Practitioner focus of the care
- May or may not be holistic
- Focus on alleviating symptom
- May or may not go back in time to look at early programming or trauma
- Rarely includes multi-dimensional healing

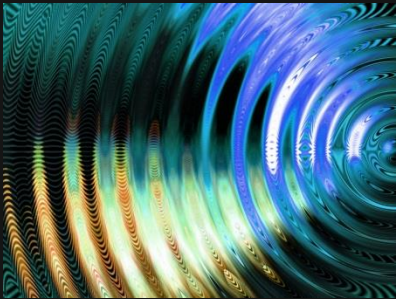

## Multi-Dimensional Healing

- ✓ Symptom or concern
- ✓ Origin
- ✓ Multi-sensory data explored as contributing factors
- ✓ Explore belief holding symptoms in place
- ✓ Childhood trauma
- ✓ Karma
- ✓ Interrelationships
- ✓ Use of intuitive data
- ✓ Explore other lifetimes

## Lines of connection & energy distribution

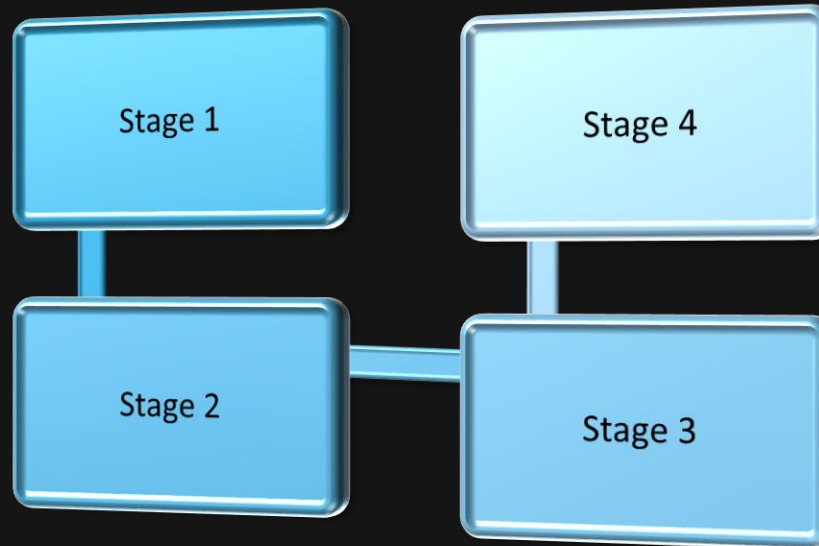

- Transmission line deliver electricity from power plants to substations
- Substations adjust voltage to lower levels to main distribution lines
- Main distribution line to large subdivisions and commercial to local distribution lines
- Local distribution lines to tap lines deliver electricity to smaller neighborhoods and businesses to distribution transformers
- Distribution transformers to service lines deliver electricity to individual home or business

Divine Source to individual Soul Star

---

Soul Star is the central power current through the human body that is the energy needed to fuel all aspects of our being that connects to the Earth Star. Between these two stations regulate the flow throughout our being

---

From Earth Star we are connected to the center of the earth that ties us here this life time.

---

When we leave physical earth, we detach from the center of the earth and our individual Earth Star and the energy goes back to the Soul Star.

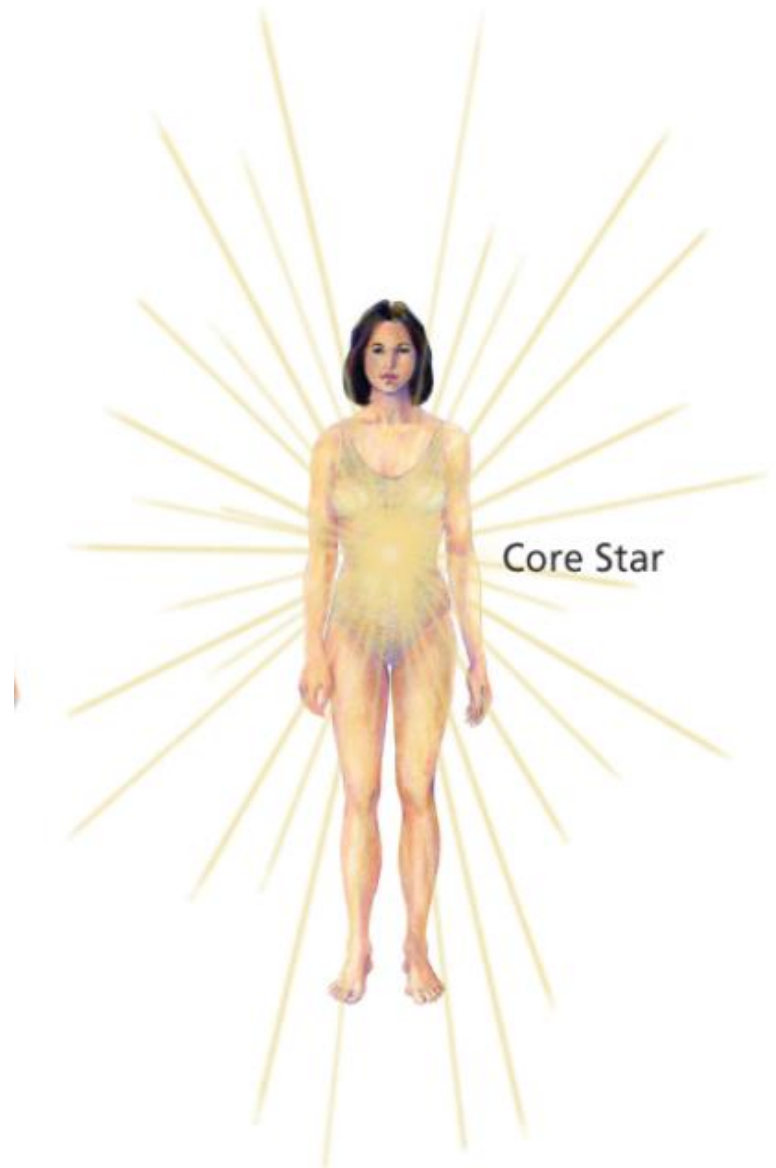

# Core Star from Divine Source

---

Travels through Central Power Current.  
Radiates throughout our being and  
beyond. Serves to share our Divine Essence  
with others.

This is how we are made in the image and  
likeness of the Divine as we all have Divine  
Essence in us if we choose to represent  
that aspect of our creation.

## Then what?

- The Central Power Current creates and activates our consciousness through 7 main Energy Centers that form our consciousness.
- The Energy Centers for the 7 Energy Field layers that form a 360 degree circle around the body to have a boundary to contain ones energy to separate you from others energy.
- Also from the Central Power Current are Energy Tracts. These lines regulate all activity of the human body: organ development, tissues, blood vessels, lymph, nerves, bones, and muscle physiology and interconnectedness.
- The Energy Tracts are lines that distribute, maintain flow to light up so to speak all aspects of our being.

## Changing Limiting Beliefs

## Changing Limiting Beliefs

### Clearing and Restructuring Eternal / Soul Light

**Description:** After clearing a limiting belief increase the energy flow by restructuring your Soul Light.

A new affirming belief is chosen and entered into the Energy System. The seventh layer, Ketheric Template, is restructured from the Soul Star to Earth Star.

**Procedure:** Say out loud the new affirming belief. Hold this vibration in the energy system throughout the intervention.

**Ketheric Template**  
Beliefs congruent with life purpose and expression of self. Knowing beyond time and space.

**Begin** at the Soul Star. Create hands of golden light above your head at the 7th layer of the field. Move your hands slowly down through the field on either side of the body. Do this 3 times.

**Grounding:** When you finish, ground yourself by wiggling your toes or hold hands above and below each foot, either near or on them.
