ADVANCED ENERGY MEDICINE THEORY

DIAGNOSING ISSUES IN THE CHAKRAS (ENERGY CENTERS) THROUGH THE DIMENSIONS OF THE ENERGY FIELD

USE THREE QUESTIONS FOR EACH CHAKRA to locate issues (front and back of the body) noted in one or more of the seven layers of the field.

Understanding gained through use of these questions will help recognize the chakra on front and back (back energy from frontation and/or blocks based on their life experiences).

The first layer of the field is created by the first chakra. The second layer of the field is created by the second chakra and so on...

Within each chakra a different energetic dimension or level of consciousness is addressed as it goes through the layers of the field.

- CROWN CHAKRA - Spirituality**
- First Layer: **Subtle Body (Etheric/Physical)** - Do you ever feel disconnected to Spirit and manifest your spirituality?
 - Second Layer: **Subtle Body (Etheric/Emotional)** - Do you feel a connection to Spirit?
 - Third Layer: **Subtle Body (Etheric/Intellectual)** - Does your thinking/feelings have your greatest spirituality?
 - Fourth Layer: **Subtle Body (Etheric/Body - Heart)** - Do you have a least connection with the Divine?
 - Fifth Layer: **Subtle Body (Etheric/Higher Physical)** - Do you speak about your spiritual beliefs?
 - Sixth Layer: **Subtle Body (Etheric/Higher Emotional)** - Does your intention include a spiritual connection?
 - Seventh Layer: **Subtle Body (Etheric/Higher Intellectual)** - Are you connected to Spirit and the universe of life?

- HEART CHAKRA - Values**
- First Layer: Do you manifest your values?
 - Second Layer: What are your feelings about your values?
 - Third Layer: Is your ability to listen reflected by your thoughts?
 - Fourth Layer: Do you notice what is in your heart?
 - Fifth Layer: Do you speak your plans and vision?
 - Sixth Layer: Do you connect with your intuition and vision?
 - Seventh Layer: Are your values connected to Spirit?

- THROAT CHAKRA - Speaking and Listening**
- First Layer: Is your communication grounded?
 - Second Layer: Do you speak your feelings?
 - Third Layer: Are you powerful when you speak your truth?
 - Fourth Layer: Do you see what is in your heart?
 - Fifth Layer: Do you listen to others and speak your truth?
 - Sixth Layer: Do you communicate your plans and vision?
 - Seventh Layer: Do you speak about your spirituality or higher knowing?

- NEEVE CHAKRA - Connection with Others**
- First Layer: Do you manifest others and love in your life?
 - Second Layer: Do you have feelings of unconditional love?
 - Third Layer: Do you think you have choices regarding love and relationships?
 - Fourth Layer: Do you give and receive unconditional love?
 - Fifth Layer: Do you speak from your heart?
 - Sixth Layer: Do you relate about love and relationships?
 - Seventh Layer: Are your relationships on a spiritual level?

- SOLAR PLEXUS CHAKRA - Visioning and Ideas**
- First Layer: Do you think clearly?
 - Second Layer: What are your feelings about yourself (your ego)?
 - Third Layer: Do you experience yourself as powerful?
 - Fourth Layer: Do you see in your power regarding your relationships?
 - Fifth Layer: Are your thoughts reflecting your ability to communicate?
 - Sixth Layer: Do thoughts block your ability to vision and create?
 - Seventh Layer: Does your thinking get in the way of your spiritual connection?

- SACRAL CHAKRA - Emotions and Intuition**
- First Layer: Are you grounded in your emotions and intuition?
 - Second Layer: Are your relationships emotionally satisfying?
 - Third Layer: Is your self-esteem affected by your emotions?
 - Fourth Layer: Do you feel love?
 - Fifth Layer: How are you feeling about speaking your truth?
 - Sixth Layer: Do your emotions affect your vision?
 - Seventh Layer: What are your feelings about a spiritual connection?

- SOUTH CHAKRA - Action**
- First Layer: What is your ability to manifest?
 - Second Layer: Do you have a plan for life through intention and manifesting?
 - Third Layer: Are you able to manifest your thoughts?
 - Fourth Layer: Are you able to manifest love in your life?
 - Fifth Layer: Are you able to communicate well?

HARA LINE

The Hara Line when in our immortality and exists as a dimension deeper than the aether field. It is made up of three parts: ID points - 5' above the head, a channel passing toward the head, the Soul Star - 2' below the bottom of the crown chakra up of diffuse light, and the Tan Tien - 5' below the navel like a hollow golden ball. The Hara is the one area that holds our physical body in manifestation as a galactic form.

Barbara Ann Brennan, Light Energy 1993, page 200

Assessing the energy flow of the Hara Line
You should be positive when you are empowered.

Head over the Tan Tien - gently
Fingers point down - gently
Fingers point up - gently
Head over head line - gently
Fingers point down - gently
Fingers point up - gently
Head at ID Point - gently
Fingers point down - gently
Fingers point up - gently

1. The Tan Tien can be strengthened (can be forward, backward or to the side) or weakened. Signs include lower back pain and problems.

- * Tan Tien forward - gentle to head back and you are trying to keep ahead of yourself
- * Tan Tien backward - gentle to head forward and you are holding back from your work
- * Tan Tien over or under open - leads and points at body. Health is serious
- * Body noticeably weak and not able to receive the pain or big dimensions

Now, flow again the Tan Tien before these things will change.

2. Head line dysfunction - person has no idea or feeling concerning what they want to do or see in the future.

- Head over their head line to back indicating an ineffective feeling
- 4 feet in deep within - 1 foot up
- backline about 4 feet up
- 1.5 ft in front and 1.5 feet up

3. ID Point: The channel can be changed and disconnected.

- 1.5 feet above the - the lowering of God
- The personal experience of God

Flow Line
Off to the right in the Tan Tien - overly aggressive, overactive energy

- His difficulty in relationship to others
- The Tan Tien is not connected to the head line - physical connection is not connected to the spiritual being, designed to lead one through life (can't feel and don't know what one wants to)
- Line not connected to ID point or back to the personal connection to spirituality or religion

Healing the Hara Alignment - Hara Meditation
Barbara Ann Brennan, Energy Healing Notebook, 2000

Place your hand on or above the Tan Tien. Ask the client to imagine a ball beginning to glow with energy and fall to the earth. It is a pure source of power and can move to the earth. Center the energy from her three points north. Then place your hand on the head line, the head above and represents a sphere of diffuse light expanding in all directions. Now move your hand above the head to the ID point and envision the two lights connecting to God and our source for energy, one that really does connect the top of light between the head line and the Earth line, strengthening the Hara Alignment.

CORE STAR

Brennan defines the Core Star as the Eternal Source of your Essence located at the center of the body (1.5 inches above the navel on the center line of the body). It is a brilliant multi-colored star of light that can expand infinitely throughout the entire physical and aetheric body to 360 degrees. It is the star that is seen, and will be, mainly, the eternal source of the Universe. It shines beyond time and space.

Barbara Ann Brennan, Light Energy 1993, page 205

Assessing the Core Star
Now the connection to our time including its flow and direction is the condition. Place the hand over the Core Star (1.5) and breathe, moving the hand through each of the seven layers. (This can also be done by holding the palm to the side and moving the hand rather than going through all layers with the hand.)

Since September 15, 2001 individuals have reported experiences of "core" feeling when the Core Star was located or identified previously by Brennan (1993). When the Core Star is in position there is a great deal of manifestation in the present as well as completion of one feeling, although will disappear once the Core Star collapses behind the head. The Core Star has not faded in all people.

Distraction
We can become distracted from our core energy. But there is an amazing thing going on with the Core Star. This dimension can create the best of our energies and the light coming through our being. Distraction is not allowed to emerge and there is no connection within or away of the Core Star feeling should include working with Core Energy from all the levels.

Barbara Ann Brennan, Light Energy 1993, page 206

Healing & Expanding the Core Star
Place the hand over the Core Star and slowly connect the Divine Source within and without. Gradually move the light throughout every cell of the body and then into all the corners of the field, clearing, filling, balancing and restoring of each and every. Then shift holding the star at the seventh level point to the head line above the head and to the Earth line below the feet. (This will be a subtle enhancement.)

Barbara Ann Brennan, Energy Healing Notebook, 2000

Energy Field, Aura, Hara, and Core Star
There is a connection between the energy field, emotions, and thoughts. A positive emotion expands the field, a negative emotion contracts or blocks the field. Even negative thoughts make the human field contract. This energy contracted to the energy field influences the physical, emotional, mental, and spiritual health of a person. What one says to oneself is very important and can have a big impact on health and morals. This means one also must be on the energy system. Recalling the memory recalls the energy manifestation field associated with the emotion. A compressed energy system will have a negative effect on the health of the client. If the field is present over a long period of time, it will lead to illness.
